

# CANNABICS PHARMACEUTICALS INC.

## **FORM 10-K** (Annual Report)

Filed 12/13/16 for the Period Ending 08/31/16

Address	#3 BETHESDA METRO CENTER SUITE 700 BETHESDA, MD 20814
Telephone	877-424-2429
CIK	0001343009
Symbol	CNBX
SIC Code	2834 - Pharmaceutical Preparations
Industry	Biotechnology & Medical Research
Sector	Healthcare
Fiscal Year	08/31

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, D.C. 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended August 31, 2016

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_.

Commission File Number: 000-52403

CANNABICS PHARMACEUTICALS INC.  
(Exact name of registrant as specified in its charter)

Nevada

(State or other jurisdiction of  
incorporation or organization)

20-3373669

(IRS Employer Identification No.)

#3 Bethesda Metro Center, Suite 700  
Bethesda, MD

(Address of principal executive offices)

20814

(Zip Code)

Registrant's telephone number, including area code: 877 424-2429

Securities registered under Section 12(b) of the Act:

None

Securities registered under Section 12(g) of the Act:

Common Stock, \$.0001 Par Value

(Title of class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.  Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.  Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the issuer was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.  Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).  Yes  No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K/A or any amendment to this Form 10-K/A.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company filer. See the definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one)

Large accelerated filer

Accelerated filer

Non-accelerated filer  (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).  Yes  No

On August 31st, 2016, the last business day of the registrant's most recently completed fourth quarter, the aggregate market value of the Common Stock held by non-affiliates of the registrant was \$922,115, based upon the closing price on that date of the Common Stock of the registrant on the OTC Bulletin Board system of \$0.05. For purposes of this response, the registrant has assumed that its directors, executive officers and beneficial owners of 5% or more of its Common Stock are deemed affiliates of the registrant.

As of as of December 12th, 2016, the registrant had 107,221,903 shares of its Common Stock, \$0.0001 par value, outstanding.

## FORWARD LOOKING STATEMENTS

Certain statements made in this Annual Report are “forward-looking statements” (within the meaning of the Private Securities Litigation Reform Act of 1995) regarding the plans and objectives of management for future operations. Such statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The forward-looking statements made in this Report are based on current expectations that involve numerous risks and uncertainties. The Company’s plans and objectives are based, in part, on assumptions involving the growth and expansion of business. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the control of the Company. Although the Company believes that its assumptions underlying the forward-looking statements are reasonable, any of the assumptions could prove inaccurate and, therefore, there can be no assurance that the forward-looking statements made in this Report will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements made in this Report, the inclusion of such information should not be regarded as a representation by the Company or any other person that the objectives and plans of the Company will be achieved.

As used in this Annual Report, the terms “we”, “us”, “our”, “Company”, and “CNBX” means Cannabics Pharmaceuticals Inc., unless otherwise indicated.

## PART I

### Item 1. Description of Business

We were previously an exploration stage mining company which has transitioned now into a bio-tech company. We currently have an IP Licensing Agreement in Spain, and the USA, but have not as yet earned revenues. We can provide no assurance that we will be able to successfully license our technology or that said licensing agreements will be commercially viable.

Our Address corporate address is #3 Bethesda Metro Center, Suite 700, Bethesda, Maryland, 20814; Telephone (877) 424-2429.

The company was previously engaged in the oil and gas exploration business. On April 29th, 2014, the company began a new direction and the majority of the Shareholders of the company elected the current Board of Directors and renamed the Company Cannabics Pharmaceuticals Inc. The Directors form a US based company founded in 2012 by a group of renowned researchers from the fields of molecular biology, cancer research and pharmacology. R&D is conducted in Government licensed labs in Israel with the focus of development of novel and sophisticated cannabinoid based therapies, medications and administration routes for various diseases.

### History

Cannabics Pharmaceuticals Inc. was incorporated on September 15, 2004, under the laws of the State of Nevada, as Thrust Energy Corp., for the purpose of acquiring undivided working interests in small oil and gas exploration properties and non-operating interests in both producing and exploration projects throughout the United States and Canada.

On September 30, 2010, we increased our authorized capital to 900 million shares of common stock (par value \$0.0001) and 100 million shares of preferred stock (par value \$0.0001), and effected a 20-for-1 reverse split of our issued and outstanding common stock. As a result of the reverse split, our issued and outstanding common stock was reduced from 13,604,000 shares to 680,202 shares and 5,000,000 preferred shares.

Due to our inability to earn any meaningful revenue from oil and gas exploration, our management determined in April 2011 that we should change our business plan to include toll milling and refining.

On May 5th, 2011, we effected a change of name to American Mining Corp. by completing a short form merger with a wholly-owned subsidiary.

On April 25th, 2014, Cannabics Inc., a Delaware Corporation, purchased 20,500,000 shares of restricted stock of the Company, thus acquiring control of the company.

On April 29th, 2014, Mr. Andrew Grundman resigned his official position as Director of the Corporation. On April 29th, 2014, the shareholders of the Corporation voted Dr. Zohar Koren, Dr. Eyal Ballan and Itamar Borochoy as the new Directors of the Company.

Dr. Zohar Koren resigned his official position as director of the corporation on January 2015.

On June 3rd, 2014, the Company's Board of Directors declared a two-to-one forward stock split of all outstanding shares of common stock. The stock split was approved by FINRA on June 19th, 2014. The effect of the stock split increased the number of shares of common stock outstanding from 40,880,203 to 81,760,406. All common share and per common share data in these financial statements and related notes hereto have been retroactively adjusted to account for the effect of the stock split for all periods presented prior to June 3rd, 2014. The total number of authorized common shares and the par value thereof was not changed by the split.

On June 19th, 2014, FINRA granted final approval of Change of Name & Ticker Symbol of the Corporation from American Mining Corporation to CANNABICS PHARMACEUTICALS INC., with the new Ticker Symbol of "CNBX". Said approval was predicated upon Cannabics Pharmaceuticals Inc.'s filing of Articles of Merger with American Mining Corporation with the Nevada Secretary of State on May 21st, 2014. Under the laws of the State of Nevada, Cannabics Pharmaceuticals Inc. was merged with and into the Registrant, with the Registrant being the surviving entity. The Merger was completed under Section 92A.180 of the Nevada Revised Statutes, Chapter 92A, as amended, and as such, does not require the approval of the stockholders of either the Registrant or Cannabics Pharmaceuticals Inc.

On July 24th, 2014, the Company executed a Collaboration Agreement with Cannabics, Inc. (“Cannabics”), a Delaware corporation and largest shareholder of the Company. Per the terms of the Agreement, the Company issued 18,239,594 shares of its common stock to acquire the entire institutional knowledge of Cannabics, Inc., which primarily consists of in-process Research & Development technology, the cumulative result of its years of scientific institutional knowledge in the fields of Molecular Biology, Cancer and Pharmacology research. Additionally Cannabics tendered \$150,000 to the Company specifically earmarked as working funds towards prospective projects of the Company. Per the Agreement, from that day forth they have carried forward their research and development as part of, and for the exclusive benefit of the Company, which initial findings have now branched out into new and divergent discoveries.

On July 31st, 2014, Cannabics Pharmaceuticals Inc. filed its exclusive Patent Application with the US Patent & Trademark Office (USPTO), which covers the proprietary technology developed by its team of experts in the field of cannabinoid long acting lipid based formulations. This patent is the basis for the company’s “CANNABICS SR” technology, which consists of the IP for standardized and long acting medical cannabis capsules, designed for patients suffering from diverse indications. Simultaneously this Patent was filed with the PCT division of the Israeli Patent Office (ILPO) in order to provide International IP protection.

On August 25th, 2014, Cannabics Pharmaceuticals Inc. incorporated a wholly owned subsidiary in Israel, named “G.R.I.N Ultra Ltd”, dedicated to advanced research and development.

On December 18th, 2014, Cannabics Pharmaceuticals Inc. executed a letter of engagement with Mountain High Products in Colorado, for the manufacturing and distribution of Cannabics SR technology in the Colorado market. Cannabics SR medical cannabis technology will be utilized by Mountain High Products in strict compliance with Colorado laws and regulations of "Cannabis Infused Edible Products" and distributed to certified dispensaries through Mountain High's existing distribution channels.

On January 29, 2015 the Company executed an Agreement with Rambam Medical Center (Israel) to undertake a controlled pilot study utilizing Cannabics SR Capsules as palliative treatment to improve cancer related Cachexia and Anorexia Syndrome in advanced stage cancer patients. Rambam is a world renowned academic hospital acknowledged for their cutting-edge research projects and integration of innovative new therapies and treatments to over 2 million residents of Northern Israel. You can view the details of this ongoing study from the NIH website at <http://www.cancer.gov/clinicaltrials/search/view?cdrid=769090&version=HealthProfessional&protocolsearchid=12509449>.

On February 15, 2015 the Company executed of a Research Agreement with the Technion Research & Development Foundation Ltd (Israel) to undertake a Research Project entitled "*The Assessment of the Antitumor Activity of the Whole Cannabis Plant Extract, Components and Derivatives Thereof*". The Research Project is scheduled to last one calendar year. Under the terms of the Agreement, Cannabics Pharmaceuticals will collaborate under the supervision of Prof. Dedi Meiri, Head of Technion’s Laboratory of Cancer Biology and Cannabinoid Research. The purpose of this Research is to develop a diagnostic and therapeutic system to harness the anti-cancer properties of active cannabis-based ingredients. The study will screen and evaluate different types of human cancer cells treated with a multitude of cannabinoid combinations and observe and catalogue the effects thereof. Technion is consistently ranked among the world’s top science and Technology Research Universities. The Faculty of Biology is comprised of 23 independent research groups, focusing on a variety of aspects of Cellular, Molecular and Developmental Biology. The faculty has extensive collaborations with the pharmaceutical and biotechnology industries.

On May 27th, 2015 the Company filed a Patent with the USPTO entitled “*A Method of in Vitro High Throughput Screening of Cancer Biopsies with Cannabinoid Extracts*”. In essence this patent takes the next step from the cancer cell knowledge already obtained from cell lines in the Technion Laboratory and extends it to a system of analyzing cancer cells taken from patient biopsies, and then testing them against a multitude of cannabinoid combinations for anti-tumor activity via the High Throughput Screening process. This patent formally begins the next phase of the Company, which is Personalized Medicine (PM). We have developed an automated high-throughput method for the screening of different types of cancer cells or biopsies treated with a multitude of cannabis extracts. These natural extracts could also be tested in conjunction with already approved and common synthetic drugs for patients that undergo chemotherapy for the most personally tailored therapy. This multilayer method is producing a large-scale database that will capture the knowledge gained as to the unique effects of different combinations of cannabinoid compounds on diverse malignancies. Coextensive with the development of the automated high-throughput system, we are also developing proprietary and novel compounds targeting diverse and specific types of tumors.

On January 25th 2016 Cannabics Pharmaceuticals Inc. executed an exclusive IP Licensing Agreement with Mountain High Products LLC and the Cima Group LLC for the production and distribution of the Company’s CANNABICS SR technology of medical cannabis capsules in Colorado. And with, Cima Group LLC which is a related party to mountain high and is charged with their operations in states outside of Colorado.

On February 24, 2016, the Company filed a new patent application for the company's slow release medical capsules with the US Patent & Trademark Office, as noted in their Press Release of that date.

On March 22nd, 2016, the Company announced the start of a regulated Clinical Study for Cancer Patients in Israel under the auspices of the Rambam Medical Center and the Ministry of Health. This clinical study involves patients with advanced cancer and cancer anorexia cachexia syndrome (CACS), endpoints examined are weight gain appetite, quality of life and a marker for anti-cancer activity. Quality of life in patients with CACS is directly related to loss of appetite and loss of weight. This study examines the influence of Cannabics Pharmaceuticals SR capsules on both of these common effects of cancer and cancer treatment. Secondary outcome measures are improvement in appetite, reduction in TNF-alpha level, safety assessment for early psychiatric side-effects, quality of life and evaluation of muscle strength. While this study is taking place in Israel, it is fully registered with the US NIH under "*Cannabics Capsules as Treatment to Improve Cancer Related CACS in Advanced Cancer Patients*", Identifier NCT02359123, and may be found at <https://clinicaltrials.gov/ct2/show/NCT02359123>.

On June 6<sup>th</sup>, 2016 the Company filed a PCT Application with the US Patent & Trademark Office (USPTO) entitled a "System and Method for High Throughput Screening of Cancer Cells". Cannabics Pharmaceuticals has developed a proprietary high throughput screening process which is designed to generate mega-data of specific cannabinoids and cannabinoid formulations with antitumor properties. In this proprietary process biopsies and live cancer cells lines are treated, In vitro, with innumerable combinations of cannabinoids and the resulting antitumor effects are screened, categorized and actually visually displayed.

## **Our Business**

We are a pharmaceutical development company focusing on cancer research utilizing advanced HTS technology and personalized bioinformatics tools.

## **Management Experience**

Cannabics Pharmaceuticals Inc.'s management team is highly experienced in various aspects of biotech and pharmaceutical management. The scientific team has a long cumulative track record in cancer and CNS research, pharmaceutical development, clinical studies and a deep hands-on understanding of the medical cannabis industry.

Dr. Eyal Ballan, 43, is a co-founder of Cannabics Inc. and is its CTO. Dr. Ballan holds a Ph.D. in Neurophysiology, EEG, Brain Wave Analysis and Cortical Connectivity. After obtaining his Ph.D. he was an entrepreneur in the field of Biofeedback Studies and developed a Resonating Neuro-Feedback system. Dr. Ballan holds a M.Sc. from Tel-Aviv University - Magna Cum Laude - in anticancer drug development. Dr. Ballan was part of the renowned research team which developed Salirasib (Treatment for Non-Small Cell Lung Cancer). He is an expert in molecular biology, cell cultures and genomics with a focus towards identification of anticancer compounds and delivery systems to tumors and is a member of the American Academy of Neurology.

Itamar Borochoy, 57, is a co-founder of Cannabics Inc. and is its Chief Executive Officer. Mr. Borochoy is an environmentalist with experience as an entrepreneur in the fields of organic agriculture and medical botanicals and brings vast expertise in the areas of market intelligence and organizational branding.

All the Directors are committed full time to the Company.

## **Advisory Board –**

Dr. Sigalit Ariely-Portnoy - Senior Advisor in the field of Regulation, Validation and Quality. Dr. Sigalit Ariely-Portnoy has over 17 years' experience in the pharmaceutical industry. During this time, she has managed pharmaceutical and chemical plants at Taro pharmaceutical industries Ltd as Operation Group Vice president and in Teva Pharmaceutical industries Ltd as Kfar-Saba OSD plant manager. Dr. Ariely-Portnoy managed Teva's largest plant worldwide (9 billion tablets per annum and more than \$2B revenues). During her career, she led more than 50 inspections by the US FDA, EMEA, Israeli MOH, and others. Dr. Ariely-Portnoy spearheaded the construction of a 200,000 sq ft pharmaceutical plant, several chemical plants and bio-warehouses, as well as many significant plant expansions for manufacturers of semisolids, liquids and oral solid dosage forms. Between the years 2003-2006, Dr. Ariely-Portnoy was the president of the Israel chapter of the PDA (Parenteral Drug Association). For the last 5 years, Dr. Ariely-Portnoy manages Gsap, a company which consults pharmaceutical, medical device and biotechnology companies in several major fields, including innovative product development, regulation, establishing quality systems and validation services. Dr. Ariely-Portnoy received her B.Sc., M.Sc., and D.Sc. from the Technion Institute of Technology in Haifa, Israel, in the fields of Chemical Engineering and Biomedical Engineering.

## Company Overview –

CANNABICS PHARMACEUTICALS, INC. is based in Bethesda, Maryland, and is dedicated to the development and licensing of advanced and sophisticated cannabinoid-based treatments and therapies. The Company's main focus is development and marketing of various new and innovative therapies and biotechnological tools aimed at providing relief from diverse ailments that respond to active ingredients sourced from the cannabis plant. These advanced tools include innovative delivery systems for cannabinoids, personalized medicine therapies and procedures based on cannabis originated compounds and bioinformatics tools.

The parent Company Cannabics Inc was founded by a group of Israeli researchers from the fields of cancer research, pharmacology and molecular biology. Its current flagship Intellectual Property is named "CANNABICS SR", a proprietary formulation to create a long acting medical cannabis capsule that was shown in observational studies in Israel to provide 10-12 hours of beneficial therapeutic effects and indicated initially as a palliative care therapy for cancer patients. This proprietary delivery method enables a convenient once per day dosing regimen of medical cannabis to patients.

The Company has a dedicated team of scientists that are working constantly on creating new technologies of medical cannabis care for patients in diverse indications. The company's Research is located in Israel which has allowed for the use of medical cannabis since the 1990s, and has a favorable regulatory attitude towards the conducting of Cannabis based clinical studies in Israeli hospitals – in contrast to the legal situation in the United States where clinical research on medical cannabis is still illegal. This structure is an extraordinary corporate advantage, and markedly separates the company from similarly minded companies.

The number of people licensed to receive medical cannabis treatment in Israel numbers around 20,000 - in comparison to over 1,000,000 in the whole of the United States. Therefore, while the Israeli market potential is regarded as limited, the ability to perform clinical studies and use the Israeli market as an "advanced medical Cannabis R&D lab" is proving to be highly advantageous.

Most importantly, while the U.S. FDA has yet to approve even basic private research relating to cannabis, the regulatory environment is quite different in Israel. Within the Israeli Ministry of Health, there is a stand-alone agency, the Israeli Medical Cannabis Agency, (IMCA), which on October 26th, 2014, granted Cannabics Pharmaceuticals an exclusive government License to launch their advanced scientific R&D program.

Through the large body of research that is conducted by its scientists and affiliated partners, the Company has been able to gain in-depth knowledge of the various therapeutic effects of diverse cannabis strains and identify patterns of cannabinoid ratios that are useful in treating various indications. The Company is currently in the midst of several collaborative programs with several leading academic research and medical centers in Israel in order to further establish the beneficial therapeutic effects of its proprietary Intellectual Property, and to refine its development of novel treatments for debilitating ailments.

### **CANNABICS SR technology**

While the medicinal effects of certain cannabinoids are well known to physicians, it is common knowledge that smoking is hazardous to health, due to the formation of inhaled carcinogenic compounds in the combustion process and deposit of tar and other damaging residues in the lung tissue. Many physicians are perfectly aware of the beneficial therapeutic properties of medical cannabis, however they refrain from recommending or prescribing it to patients knowing that smoking the raw flowers is still the most common and available administration route. Suggesting smoking for a grandmother going through cancer treatment makes little sense. Hence the availability of an oral, standardized, reliable and clinically tested administration route of medical cannabis – no different from the administration route of most medications consumed by patients today - would dramatically improve the availability of medical cannabis therapy to patients in need.

### **Standardization and reproducibility**

Most practicing physicians are aware of the increasing market availability of cannabis edible products such as cannabis cookies, chocolates and chewing gums. However, these products have so far totally failed in gaining credibility in the eyes of the medical community due to a severe lack in standardization and reproducibility. Laboratory tests of cannabinoid concentrations in currently available edible products have demonstrated severe variability in the potency of those products, due to non-uniformity of manufacturing procedures in the kitchens that produce them. In addition, the bioavailability levels (the amount of active ingredients that ultimately reach the blood stream after ingestion) of these products is also highly variable due to the lack of a standardized and efficient formulation. As a result, it is very common to either over-dose or under-dose when using such cannabis edibles as a therapeutic means, a fact which rightly prevents most physicians from recommending these medically un-tested products. Therefore, a substantial unmet need of the medical cannabis market is a standardized and reproducible product, which is based on a sophisticated and advanced formulation that provides a high and predictable bioavailability level of the cannabis active ingredients to patients.

**Long lasting and stable effect profile**

An additional substantial drawback of most currently available administration routes of medical cannabis is the short lasting effect profile that they offer, with a typical 3-4 hour effect for smoking, vaporizing and sublingual administration, and a typical 6-7 hour effect for unformulated edible products. As a result, the patient has to re-dose several times throughout the day, and suffers from inconsistent and rapidly variable levels of therapeutic effects. Many patients and physicians report that this is one of the main limitations to the efficacy of currently available medical cannabis therapies, and a major cause for a sub-optimal treatment. Therefore, a substantial unmet need in the medical cannabis field is a long acting product that will provide a steady state level of therapeutic effects for at least 10 hours, and can thus allow a whole day of beneficial response within the therapeutic window upon a once-per-day dosing regimen.

Cannabics Pharmaceuticals Inc. has developed its proprietary “CANNABICS SR” long acting formulation in order to address these specific unmet needs of medical cannabis needs described above. This sophisticated and advanced formulation is the core technology embedded in CANNABICS SR. Our technology allows for standardized and long acting medical cannabis dosage, designed for specific and various indications. The proprietary formulation ensures the patient experiences a constant, steady state level of beneficial effects within the therapeutic window for up to a 10 – 12 hour span. The unique long acting formulation allows for once-per-day dosing regimen that provides the desired therapeutic effects of medical cannabis throughout the day. Thus, our technology enables a safe, effective and reproducible administration method and fulfils the unmet needs of both patients and physicians.

The Cannabics SR technology perfectly solves one of the major concerns of medical cannabis patients, which is the initial high peak of active cannabinoids concentration in the plasma soon after administration. This high peak is a common feature of immediate release cannabis administration methods, and can cause undesirable side effects such as disorientation and dizziness. The unique pharmacokinetic profile of our technology helps to avoid this undesired result. The CANNABICS technology assumes only natural pure extracts of active cannabinoids from specifically selected strains of medical cannabis, that are carefully chosen to serve the unique needs of patients suffering from specific indications. There are no synthetic compounds involved. The CANNABICS technology is pre-designed to fit the currently existing medical cannabis regulations in Israel, Europe and certain US States which are licensed as a “Medical Marijuana Infused Products Manufacturer” (§12-43.3-404 CRS). The ingredients used in the proprietary CANNABICS SR formulation are all certified food grade ingredients (recognized by the FDA as “G.R.A.S.” – Generally Regarded as Safe) and the formulation is free of any artificial additives or chemical substances. Thus the CANNABICS SR technology is fully compliant with the current cannabis infused edible product regulatory definition, which is in fact very similar to a regular food supplement regulatory definition.

As a result, CANNABICS technology is exempt from long and arduous pharmaceutical development processes and does not require additional regulatory approval beyond the standard “Medical Marijuana Infused Products Manufacturer” license from a licensee (the “manufacturer”) in order to reach the market. This unique position distinguishes CANNABICS SR technology from other options currently available in the market. On the one hand, the technology proffers a fully standardized and reproducible product that has compliance for GMP manufacturing standards just as one would expect from any pharmaceutical product; and on the other hand it is pre-designed to allow for use of this technology without long, arduous and extremely expensive regulation processes that are typical in the pharmaceutical industry.

In order to establish the goal of true standardization and reproducibility and to indeed rank as one of the leading medical cannabis technologies in the market, Cannabics Pharmaceuticals, Inc. has achieved Good Manufacturing Practices (GMP) capabilities. GMP regulations are designed to ensure that products are produced and controlled according to the highest industry quality standards. Adhering to these practices ranks Cannabics among a very limited number of medical cannabis technologies available in the market that are capable of being manufactured according to GMP standards. An additional goal of the company is to be one of the first and few companies in the world to commercialize its clinically tested cannabis-based technology. In furtherance of this goal, Cannabics Inc. has now undertaken a series of clinical studies in renowned medical centers in Israel where the R&D division is strategically located. Achievement of GMP manufacturing capabilities is an important pre-requisite for the initiation of these clinical studies. The efficacy and safety data collected in these formal clinical studies, together with the superior pharmacokinetic profile of the Cannabics SR formulation, will be the key advantage of Cannabics in the medical cannabis arena.

Cannabics Pharmaceuticals Inc. has now initiated its technology through a strategic partner in the state of Colorado and EU markets under existing medical cannabis regulatory pathways, while simultaneously preparing to launch a series of formal clinical studies in order to establish the unique medical benefits of its technologies for patients suffering from various indications.

The company's business model is solely based on technology development and IP out-licensing to licensed and certified producers for marketing. The Company's technologies are licensed to a strategic partner in compliance with each country's and/or US state's statutory regulations and exclusively to licensed and authorized medical cannabis local licensees that have adequate production and marketing capabilities. Within the US, Cannabics Pharmaceuticals Inc. itself *does not* manufacture, distribute, dispense or possess any controlled substances, including cannabis or cannabis based preparations, it merely licenses its IP. Within Israel, Europe and other territories outside the US, Cannabics Pharmaceuticals Inc. may employ a different business model through gaining adequate licenses under the appropriate regulations in each territory, all in full compliance with local rules and regulations in each country. Cannabics Pharmaceuticals Inc. is purely a Bio-Technology Pharmaceutical company which licenses use of its Intellectual Property, it does not itself produce or provide any product in any location.

### **Intellectual Property**

On July 31, 2014, the Company filed an exclusive Patent Application with the US Patent & Trademark Office (USPTO), which covers the proprietary technology developed by its team of experts in the field of cannabinoid long acting lipid based formulations. This technology is the basis for the company's "CANNABICS SR" technology, which is the basis of a standardized and long acting medical cannabis capsules, designed for patients suffering from diverse indications. Simultaneously a Patent Application was filed with the PCT division of the Israeli Patent Office (ILPO) in order to provide International IP protection.

On May 27th, 2015 the Company filed a Patent with the USPTO entitled "*A Method of in Vitro High Throughput Screening of Cancer Biopsies with Cannabinoid Extracts*". In essence this patent takes the next step from the cancer cell knowledge already obtained from cell lines in the Technion Laboratory and extends it to a system of analyzing cancer cells taken from patient biopsies, and then testing them against a multitude of cannabinoid combinations for anti-tumor activity via the High Throughput Screening process. This patent formally begins the next phase of the Company, which is Personalized Medicine (PM). We have developed an automated high-throughput method for the screening of different types of cancer cells or biopsies treated with a multitude of cannabis extracts. These natural extracts could also be tested in conjunction with already approved and common synthetic drugs for patients that undergo chemotherapy for the most personally tailored therapy. This multilayer method is producing a large-scale database that will capture the knowledge gained as to the unique effects of different combinations of cannabinoid compounds on diverse malignancies. Coextensive with the development of the automated high-throughput system, we are also developing proprietary and novel compounds targeting diverse and specific types of tumors.

On February 24, 2016, the Company filed a new patent application for the company's slow release medical capsules with the US Patent & Trademark Office, as noted in their Press Release of that date.

On June 6th, 2016 the Company filed a PCT Application with the US Patent & Trademark Office (USPTO) entitled a "System and Method for High Throughput Screening of Cancer Cells". Cannabics Pharmaceuticals has developed a proprietary high throughput screening process which is designed to generate mega-data of specific cannabinoids and cannabinoid formulations with antitumor properties. In this proprietary process biopsies and live cancer cells lines are treated, In vitro, with innumerable combinations of cannabinoids and the resulting antitumor effects are screened, categorized and actually visually displayed.

### **Competitive Factors**

The Pharmaceutical industry is highly competitive and we will be competing with many other and better financed companies.

We are an early stage pharmaceutical company, with deminimis positive cash flow. We compete with other early stage bio-tech and pharmaceutical companies for financing from a limited number of investors that are prepared to make investments in early stage development companies. The presence of competing early stage pharmaceutical companies may impact on our ability to raise additional capital in order to fund our research and development if investors are of the view that investments in competitors are more attractive based on their subjective analysis of our company, the general market conditions and the price of the investment offered to investors.

### **Regulations**

Cannabics Pharmaceuticals Inc. is purely a Bio-Technology Pharmaceutical company which licenses use of its Intellectual Property, it does not produce, manufacture or provide any product in any location. We are duly licensed by the Israeli Health Ministry for our research in Israel. Beyond the Israeli Health Ministry (by whom we are licensed), we are not under the aegis of any Federal or State regulatory scheme as we have no manufacturing activity. Any licensee whom we engage must be duly licensed and certified according to all pertinent local government regulations.

It is imperative for the reader of this report to recognize that the company itself does not manufacture, distribute, or dispense any controlled substances, including cannabis, rather it develops proprietary technologies that are then licensed for use by certified and governmentally approved manufacturers. However, as is well known, US Federal regulations continue to consider Cannabis a schedule 1 drug, meaning that it has no currently accepted medical use in treatment, and thus illegal under Federal US laws. As such, the company could be deemed to be at variance with the Federal Controlled Substances Act.

### **Employees**

As of August 31, 2016, the Company had 2 employees, one of which was our Director Eyal Ballan, who, along with our administrative assistant were given monthly salaries. We do not presently have pension, health, annuity, insurance, stock options, profit sharing or similar benefit plans; however, we may adopt such plans in the future.

### **Item 1A. Risk Factors**

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information required under this item.

### **Item 1B. Unresolved Staff Comments**

None.

### **Item 2. Properties**

Our executive offices are located in Bethesda, Maryland and are sufficient for the time being. These offices are let to us by our attorney free of charge.

### **Item 3. Legal Proceedings**

There are no pending legal proceedings to which the Company is a party or in which any director, officer or affiliate of the Company, any owner of record or beneficially of more than 5% of any class of voting securities of the Company, or security holder is a party adverse to the Company or has a material interest adverse to the Company.

### **Item 4. Mine Safety Disclosures**

Not applicable.

## PART II

### Item 5. Market For Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

#### Market Information.

We have one class of securities, Common Voting Equity Shares ("Common Stock"). The holders of our common stock have equal ratable rights to dividends from funds legally available if and when declared by our Board of Directors and are entitled to share pro-rata in all of our available assets for distribution to holders of common stock upon liquidation, dissolution or winding up of our affairs; there are no preemptive, subscription or conversion rights and there are no redemption or sinking fund provisions or rights.

Our common stock is quoted on the NASDAQ OTC Bulletin Board ("OTCBB") under the symbol "CNBX". As of November 28th, 2016, the Company's common stock was held by 69 shareholders of record, which does not include shares that are held in street or nominee name.

The closing share prices presented below represent prices between broker-dealers and do not include retail mark-ups and mark-downs or any commission to the dealer.

<u>QUARTER ENDED</u>	<u>HIGH</u>	<u>LOW</u>
August 31, 2016	\$ 0.05	\$ 0.04
May 31, 2016	\$ 0.06	\$ 0.06
February 28, 2016	\$ 0.12	\$ 0.08
November 30, 2015	\$ 0.05	\$ 0.04
August 31, 2015	\$ 0.18	\$ 0.12

#### Shareholders

Our shares of common stock are issued in registered form. The registrar and transfer agent for our shares of common stock is ClearTrust LLC, 16540 Pointe Village Dr. Suite 210, Lutz, FL 33558; (813) 235-4490.

On November 28th, 2016, the shareholders' list of our shares of common stock showed 69 registered holders of our shares of common stock and 107,221,903 shares of common stock outstanding. The number of record holders was determined from the records of our transfer agent and does not include beneficial owners of shares of common stock whose shares are held in the names of various security brokers, dealers, and registered clearing agencies.

#### Dividend Policy

Our board of directors may declare and pay dividends on outstanding shares of common stock out of funds legally available there for in our sole discretion; however, to date no dividends have been declared or paid on common stock.

#### Indemnification of Directors and Officers

Nevada Corporation Law allows for the indemnification of officers, directors, and any corporate agents in terms sufficiently broad to indemnify such persons under certain circumstances for liabilities, including reimbursement for expenses, incurred arising under the 1933 Act. The Bylaws of the Company provide that the Company will indemnify its directors and officers to the fullest extent authorized or permitted by law and such right to indemnification will continue as to a person who has ceased to be a director or officer of the Company and will inure to the benefit of his or her heirs, executors and Consultants; provided, however, that, except for proceedings to enforce rights to indemnification, the Company will not be obligated to indemnify any director or officer in connection with a proceeding (or part thereof) initiated by such person unless such proceeding (or part thereof) was authorized by the Board of Directors. The right to indemnification conferred will include the right to be paid by the Company the expenses (including attorney's fees) incurred in defending any such proceeding in advance of its final disposition.

The Company may, to the extent authorized from time to time by the Board of Directors, provide rights to indemnification and to the advancement of expenses to employees and agents of the Company similar to those conferred to directors and officers of the Company. The rights to indemnification and to the advancement of expenses are subject to the requirements of the 1940 Act to the extent applicable.

Furthermore, the Company may maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of the Company or another company against any expense, liability or loss, whether or not the Company would have the power to indemnify such person against such expense, liability or loss under the Nevada General Corporation Law.

### **Recent Sales of Unregistered Securities**

During the year ended August 31, 2016, the Company issued 3,133,332 shares to 11 people at \$.03 per share for a total of \$94,000.

During the year ended August 31, 2016, the Company issued 1,290,000 shares of its common stock to 6 consultants for services rendered at a fair value of 47,550 or an average of \$0.037 per share .

These securities were not registered under the Securities Act of 1933, as amended (the "Securities Act"), but were issued in reliance upon the exemption from registration provided by Section 4(2) of the Securities Act as a transaction by an issuer not involving a public offering.

### **Penny Stock Regulation**

Our shares must comply with the Penny Stock Reform Act of 1990, which may potentially decrease our shareholders' ability to easily transfer their shares. Broker-dealer practices in connection with transactions in "penny stocks" are regulated. Penny stocks generally are equity securities with a price of less than \$5.00. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document that provides information about penny stocks and the risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction, and monthly account statements showing the market value of each penny stock held in the customer's account. In addition, the penny stock rules generally require that prior to a transaction in a penny stock, the broker-dealer make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for a stock that must comply with the penny stock rules. Since our shares must comply with such penny stock rules, our shareholders will in all likelihood find it more difficult to sell their securities.

### **Item 6. Selected Financial Data**

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information required under this item.

### **Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations**

THE FOLLOWING DISCUSSION SHOULD BE READ IN CONJUNCTION WITH OUR AUDITED FINANCIAL STATEMENTS AND THE RELATED NOTES THAT APPEAR ELSEWHERE IN THIS ANNUAL REPORT. THE FOLLOWING DISCUSSION CONTAINS FORWARD-LOOKING STATEMENTS THAT REFLECT OUR PLANS, ESTIMATES AND BELIEFS. OUR ACTUAL RESULTS COULD DIFFER MATERIALLY FROM THOSE DISCUSSED IN THE FORWARD LOOKING STATEMENTS. FACTORS THAT COULD CAUSE OR CONTRIBUTE TO SUCH DIFFERENCES INCLUDE THOSE DISCUSSED BELOW AND ELSEWHERE IN THIS ANNUAL REPORT.

### **FORWARD-LOOKING STATEMENTS**

Certain statements made in this report may constitute "forward-looking statements on our current expectations and projections about future events". These forward-looking statements involve known or unknown risks, uncertainties and other factors that may cause the actual results, performance, or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. In some cases you can identify forward-looking statements by terminology such as "may," "should," "potential," "continue," "expects," "anticipates," "intends," "plans," "believes," "estimates," and similar expressions. These statements are based on our current beliefs, expectations, and assumptions and are subject to a number of risks and uncertainties. Although we believe that the expectations reflected-in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. These forward-looking statements are made as of the date of this report, and we assume no obligation to update these forward-looking statements whether as a result of new information, future events, or otherwise, other than as required by law. In light of these assumptions, risks, and uncertainties, the forward-looking events discussed in this report might not occur and actual results and events may vary significantly from those discussed in the forward-looking statements.

## Overview

The Company was incorporated in the State of Nevada, on September 15, 2004, as Thrust Energy Corp. On May 5, 2011, the Company changed its name to American Mining Company. Our principal offices are in Bethesda, Maryland. On May 21st, 2014 the Company changed its name to its current Cannabics Pharmaceuticals Inc.

The Company was originally engaged in the exploration, development and production of oil and gas projects within North America, but was unable to operate profitably. In May 2011, the Company suspended its oil and gas operations and changed its business to toll milling and refining and mine development. As of April 2014, the Company has changed its course of business to Biotechnology Pharmaceutical development. As such, the Company has divested itself of its former mining properties.

## Financing

We will require additional financing to implement our business plan, which may include joint venture projects and debt or equity financings. The nature of this enterprise and lack of positive cash flow places debt financing beyond the credit-worthiness required by most banks or typical investors of corporate debt until such time as an economically viable profits and losses can be demonstrated. Therefore any debt financing of our activities may be costly and result in substantial dilution to our stockholders.

Future financing through equity investments is likely to be dilutive to existing stockholders. Also, the terms of securities we may issue in future capital transactions may be more favorable for our new investors. Newly issued securities may include preferences, superior voting rights, and the issuance of warrants or other derivative securities, which may have additional dilutive effects. Further, we may incur substantial costs in pursuing future capital and financing, including investment banking fees, legal fees, accounting fees, and other costs. We may also be required to recognize non-cash expenses in connection with certain securities we may issue, such as convertible notes and warrants, which will adversely impact our financial condition.

Our ability to obtain needed financing may be impaired by such factors as the capital markets, both generally and specifically in the bio-pharma industry, and the fact that we have not been profitable to date, which could impact the availability or cost of future financings. If the amount of capital we are able to raise from financing activities, together with our revenue from operations, is not sufficient to satisfy our capital needs, even to the extent that we reduce our operations accordingly, we may be required to cease operations.

There is no assurance that we will be able to obtain financing on terms satisfactory to us, or at all. We do not have any arrangements in place for any future financing. If we are unable to secure additional funding, we may cease or suspend operations. We have no plans, arrangements or contingencies in place in the event that we cease operations.

## Results of Operations

### Year ended August 31, 2016 compared to the year ended August 31, 2015

#### Revenues

The revenues for the year ended August 31, 2016 totaled to \$112,500.

In March 2016, we received a \$50,000 deposit and in May 2016 received an additional \$50,000 deposit from a potential strategic investor as an option agreement towards a final licensing agreement for certain of its technologies. The deposits were forfeited under the terms of the agreement.

The Company received \$12,500 as IP fees.

#### Operating and Other Expenses

For the year ended August 31, 2016 our total operating expenses were \$393,177 compared to \$536,500 for the year ended August 31, 2015. The decrease is attributable mainly to, general and administrative expenses of \$119,737, marketing expenses of \$61,755, offset by an increase in research and development expenditures of \$38,169. The decrease in the operating expenses attributed to reduction as a result of cash storage.

The net loss for the year ended August 31, 2016 was \$307,181 compared to \$541,387 for the year ended August 31, 2015.

## **Liquidity and Capital Resources**

### ***Overview***

For the years ended August 31, 2016, as well as August 31, 2015, we funded our operations through issuance of common stock and advances from our majority shareholder. Our principal use of funds during the year ended August 31, 2016 has been for laboratory and clinical research relating to our proprietary materials normative corporate operating expenses.

### **Liquidity and Capital Resources during the year ended August 31, 2016 compared to the year ended August 31, 2015**

As of August 31, 2016, we had \$19,127 compared to \$25,229 as of August 31, 2015. The Company used cash in operations of \$120,103 for the year ended August 31, 2016 compared to cash used in operations of \$179,055 for the year ended August 31, 2015.

During the year ended August 31, 2016, the Company received \$20,000 in proceeds from a promissory note as well as \$94,000 from the issuance of common stock, compared to \$108,556 in the year ended August 31, 2015.

### **Going Concern**

Our independent auditors included an explanatory paragraph in their report on the accompanying consolidated financial statements regarding concerns about our ability to continue as a going concern. Our financial statements contain additional note disclosures describing the circumstances that lead to this disclosure by our independent auditors.

Our financial statements have been prepared on a going concern basis, which assumes the realization of assets and settlement of liabilities in the normal course of business. Our ability to continue as a going concern is dependent upon our ability to generate profitable operations in the future and/ or to obtain the necessary financing to meet our obligations and repay our liabilities arising from normal business operations when they become due. The outcome of these matters cannot be predicted with any certainty at this time and raise substantial doubt that we will be able to continue as a going concern. Our financial statements do not include any adjustments to the amount and classification of assets and liabilities that may be necessary should we be unable to continue as a going concern.

There is no assurance that our operations will be profitable. The Company has conducted private placements of its common stock, which have generated funds to satisfy the initial cash requirements of its planned Nevada exploration ventures. Our continued existence and plans for future growth depend on our ability to obtain the additional capital necessary to operate either through the generation of revenue or the issuance of additional debt or equity.

### **Off-Balance Sheet Arrangements**

We currently have no off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

### **7A. Quantitative and Qualitative Disclosures About Market Risk.**

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information required under this item.

## **Item 8. Financial Statements and Supplementary Data.**

## REPORT OF REGISTERED INDEPENDENT AUDITORS

To the Board of Directors and Stockholders  
of Cannabics Pharmaceuticals Inc.:

We have audited the accompanying consolidated balance sheets of Cannabics Pharmaceuticals Inc. as of August 31, 2016 and 2015 and the related consolidated statements of operations, stockholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States of America). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Cannabics Pharmaceuticals Inc. as of August 31, 2016 and 2015 and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the financial statements, the Company has incurred an operating loss since inception. Further, as of August 31, 2016, the cash resources of the Company were insufficient to meet its planned business objectives. These and other factors raise substantial doubt about the Company's ability to continue as a going concern. Management's plan regarding these matters is also described in Note 1 to the financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Respectfully submitted,

*/s/ Weinberg & Baer LLC*

**CANNABICS PHARMACEUTICALS INC.**  
**Notes to Consolidated Financial Statements**  
**As of August 31, 2016**

**Note 1 – Nature of Business, Presentation and Going Concern**

***Organization***

Cannabics Pharmaceuticals Inc. (the "Company"), was incorporated in the State of Nevada, on September 15, 2004, under the name of Thrust Energy Corp. The Company was originally engaged in the exploration, exploitation, development and production of oil and gas projects within North America, but was unable to operate profitably.

In May 2011, the Company changed its name to American Mining Corporation, suspending its oil and gas operations and changing its business to toll milling and refining, mineral exploration and mine development.

On April 25, 2014, the Company experienced a change in control. Cannabics, Inc. ("Cannabics") acquired a majority of the issued and outstanding common stock of the Company in accordance with stock purchase agreements by and between Cannabics and Thomas Mills ("Mills"). On the closing date, April 25, 2014, pursuant to the terms of the Stock Purchase Agreement, Cannabics purchased from Mills 41,000,000 shares of the Company's outstanding restricted common stock for \$198,000, representing 51%.

On May 21, 2014, the Company changed its name, via merger in the state of Nevada, to Cannabics Pharmaceuticals Inc. The Company's principle offices are in Bethesda, Maryland. As of May 21, 2014, the Company has changed its course of business to laboratory research and development.

On August 25, 2014, the Company organized G.R.I.N. Ultra Ltd. ("GRIN"), an Israeli corporation, as a wholly-owned subsidiary. GRIN will provide research and development activities for the Company's products in Israel.

***Stock Split***

On June 3, 2014, the Company's Board of Directors declared a two-to-one forward stock split of all outstanding shares of common stock. The stock split was approved by FINRA on June 25, 2014. The effect of the stock split increased the number of shares of common stock outstanding from 40,880,203 to 81,760,406. All common share and per common share data in these financial statements and related notes hereto have been retroactively adjusted to account for the effect of the stock split for all periods presented prior to June 3, 2014. The total number of authorized common shares and the par value thereof was not changed by the split.

***Basis of Presentation***

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules and regulations of the Securities and Exchange Commission ("SEC").

***Going Concern***

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has incurred a net loss of \$307,181 for the year ended August 31, 2016 and has incurred cumulative losses since inception of \$1,586,319. These conditions raise substantial doubt about the ability of the Company to continue as a going concern.

The Company's continuation as a going concern is dependent upon its ability to generate revenues, its ability to continue to raise investment capital, and implementing its business plan. No assurance can be given that the Company will be successful in these efforts.

## **Note 1 – Nature of Business, Presentation and Going Concern (Continued)**

### ***Going Concern (Continued)***

These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. Management believes that actions presently being taken to obtain additional funding and implement its strategic plans provide the opportunity for the Company to continue as a going concern. No assurance can be given that the Company will be successful in these efforts.

## **Note 2 – Summary of Significant Accounting Policies**

### ***Functional currency***

The currency of the primary economic environment in which the operations of the Company and its Subsidiary are conducted is the U.S. dollar (“\$” or “dollar”). Therefore, the functional currency of the Company and its Subsidiary is the dollar.

Transactions and balances denominated in dollars are presented at their original amounts. Non-dollar transactions and balances have been re-measured to dollars in accordance with the provisions of ASC 830-10 (formerly Statement of Financial Accounting Standard 52), "Foreign Currency Translation". All transaction gains and losses from re-measurement of monetary balance sheet items denominated in non-dollar currencies are reflected in the statement of operations as financial income or expenses, as appropriate.

### ***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates in the accompanying financial statements include the amortization period for intangible assets, impairment valuation of intangible assets, valuation of share-based payments and the valuation allowance on deferred tax assets.

### ***Principles of Consolidation***

The consolidated financial statements include the accounts of Cannabics Pharmaceutical Inc. and its wholly-owned subsidiary, G.R.I.N. Ultra Ltd. All significant inter-company balances and transactions have been eliminated in consolidation.

### ***Cash and Cash Equivalents***

The Company considers all highly liquid temporary cash investments with an original maturity of three months or less to be cash equivalents. At August 31, 2016 and 2015, cash equivalents consisted of bank accounts held at financial institutions.

### ***Concentration of Credit Risk***

The Company places its cash and cash equivalents with high credit quality financial institutions. There is Federal Deposit Insurance on the Company’s U.S. bank accounts.

### ***Equipment, net***

Equipment at August 31, 2016 consists of computer equipment and is recorded at cost. Expenditures for major additions and betterments are capitalized. Maintenance and repairs are charged to operations as incurred. Depreciation of property and equipment is computed by the straight-line method (after taking into account their respective estimated residual values) over the assets estimated useful lives of 3 years. Upon sale or retirement of property and equipment, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is reflected in the consolidated statements of operations.

Depreciation expense was \$1,577 and \$1,304 for the years ended August 31, 2016 and 2015, respectively.

## **Note 2 – Summary of Significant Accounting Policies (Continued)**

### ***Revenue recognition***

Revenue is recognized when delivery has occurred, evidence of an arrangement exists, title and risks and rewards for the products are transferred to the customer, collection is reasonably assured and product returns can be reliably estimated.

Revenue from license agreements is recognized over the periods from which the Company is entitled to the respective payments.

The Company's revenues are concentrated in a small number of customers. For the year ended August 31, 2016 the revenues were for license fees or forfeited deposits on license agreements.

### ***Impairment or Disposal of Long-Lived Assets***

The Company accounts for the impairment or disposal of long-lived assets according to the Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC") 360 "Property, Plant and Equipment". ASC 360 clarifies the accounting for the impairment of long-lived assets and for long-lived assets to be disposed of, including the disposal of business segments and major lines of business. Long-lived assets are reviewed when facts and circumstances indicate that the carrying value of the asset may not be recoverable. When necessary, impaired assets are written down to estimated fair value based on the best information available. Estimated fair value is generally based on either appraised value or measured by discounting estimated future cash flows. Considerable management judgment is necessary to estimate discounted future cash flows. Accordingly, actual results could vary significantly from such estimates.

### ***Fair Value of Financial Instruments***

The following provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which fair value is observable:

Level 1 - fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair value estimates discussed herein are based upon certain market assumptions and pertinent information available to management as of August 31, 2016 and 2015. The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values due to the short-term nature of these instruments.

Derivative liabilities fair values were based on level 1.

The Company applied ASC 820 for all non-financial assets and liabilities measured at fair value on a non-recurring basis. The adoption of ASC 820 for non-financial assets and liabilities did not have a significant impact on the Company's financial statements.

As of August 31, 2016 and 2015 the fair values of the Company's financial instruments approximate their historical carrying amount.

### **Research and development, net**

Research and development expenses include costs directly attributable to the conduct of research and development programs, including the cost of salaries, employee benefits, the cost of supplies, the cost of services provided by outside contractors, including services related to the Company's clinical trials, clinical trial expenses and the full cost of manufacturing product for use in research and preclinical development. All costs associated with research and development are expensed as incurred.

Clinical trial costs are a significant component of research and development expenses and include costs associated with third-party contractors. The Company outsources a substantial portion of its clinical trial activities, utilizing external entities such as Contract Research Organizations, independent clinical investigators, and other third-party service providers to assist the Company with the execution of its clinical studies. For each clinical trial that the Company conducts, clinical trial costs are expensed immediately.

## **Note 2 – Summary of Significant Accounting Policies (Continued)**

### ***Stock Based Compensation***

The Company accounts for Stock-Based Compensation under ASC 718 “Compensation – Stock Compensation”, which addresses the accounting for transactions in which an entity exchanges its equity instruments for goods or services, with a primary focus on transactions in which an entity obtains employee services in share-based payment transactions. ASC 718-10 requires measurement of the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. Incremental compensation costs arising from subsequent modifications of awards after the grant date must be recognized.

The Company accounts for stock-based compensation awards to non-employees in accordance with ASC 505-50, Equity-Based Payments to Non-Employees. Under ASC 505-50, the Company determines the fair value of the warrants or stock-based compensation awards granted as either the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable. Any stock options or warrants issued to non-employees are recorded in expense and additional paid-in capital in shareholders' deficit over the applicable service periods using variable accounting through the vesting dates based on the fair value of the options or warrants at the end of each period.

The Company issues stock to consultants for various services. The costs for these transactions are measured at the fair value of the consideration received or the fair value of the equity instruments issued, whichever is more reliably measurable. The value of the common stock is measured at the earlier of (i) the date at which a firm commitment for performance by the counterparty to earn the equity instruments is reached or (ii) the date at which the counterparty's performance is complete. The Company recognized consulting expense and a corresponding increase to additional paid-in-capital related to stock issued for services.

### ***Income Taxes***

Income taxes are accounted for under the liability method of accounting for income taxes. Under the liability method, future tax liabilities and assets are recognized for the estimated future tax consequences attributable to differences between the amounts reported in the financial statement carrying amounts of assets and liabilities and their respective tax bases. Future tax assets and liabilities are measured using enacted or substantially enacted income tax rates expected to apply when the asset is realized or the liability settled. The effect of a change in income tax rates on future income tax liabilities and assets is recognized in income in the period that the change occurs. Future income tax assets are recognized to the extent that they are considered more likely than not to be realized.

The FASB has issued ASC 740 “Income Taxes”. ASC 740 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements. This standard requires a company to determine whether it is more likely than not that a tax position will be sustained upon examination based upon the technical merits of the position.

If the more-likely-than-not threshold is met, a company must measure the tax position to determine the amount to recognize in the financial statements.

As a result of the implementation of this standard, the Company performed a review of its material tax positions in accordance with recognition and measurement standards established by ASC 740 and concluded that the tax position of the Company has not met the more-likely-than-not threshold as of August 31, 2016.

### ***Comprehensive Income***

The Company adopted ASC 220, *Comprehensive Income* which establishes standards for reporting and display of comprehensive income, its components and accumulated balances. The Company is disclosing this information on its Statement of Stockholders' Equity. Comprehensive income comprises equity except those resulting from investments by owners and distributions to owners. The Company has no elements of “other comprehensive income” for the years ended August 31, 2016 and 2015.

## **Note 2 – Summary of Significant Accounting Policies (Continued)**

### ***Basic and Diluted Loss per Share***

The Company computes income (loss) per share in accordance with ASC 260, "Earnings per Share", which requires presentation of both basic and diluted earnings per share ("EPS") on the face of the statement of operations. Basic EPS is computed by dividing income (loss) available to common shareholders by the weighted average number of shares outstanding during the period. Diluted EPS gives effect to all dilutive potential shares of common stock outstanding during the period using the treasury stock method and convertible preferred stock using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all dilutive potential shares if their effect is anti-dilutive. As of August 31, 2016 and 2015, the potentially dilutive shares were anti-dilutive.

### ***Segment Information***

In accordance with the provisions of ASC 280-10, "Disclosures about Segments of an Enterprise and Related Information", the Company is required to report financial and descriptive information about its reportable operating segments. The Company does not consider itself to have any operating segments as of August 31, 2016 and 2015.

### ***Reclassification***

Certain amounts in the prior period financial statements have been reclassified to conform to the current period presentation.

## **Note 3 – Recent Accounting Pronouncements**

In February 2015, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") 2015-02, "Consolidation (Topic 810): Amendments to the Consolidation Analysis", which provides guidance in evaluating entities for inclusion in consolidations. ASU 2015-02 is effective for fiscal years beginning after December 15, 2015. The Company does not believe the adoption of ASU 2015-02 will have a material effect on its consolidated financial statements.

In June 2014, the FASB issued Accounting Standards Update ("ASU") No. 2014-10 ("ASU 2014-10"), *Development Stage Entities (Topic 915), Elimination of Certain Financial Reporting Requirements, Including an Amendment to Variable Interest Entities Guidance in Topic 810, Consolidation*. The objective of the amendments in this Update is to improve financial reporting by reducing the cost and complexity associated with incremental reporting requirements for development stage entities. The amendments in this Update also eliminate an exception provided to development stage entities in Topic 810, Consolidation, for determining whether an entity is a variable interest entity on the basis of the amount of investment equity at risk. The amendments related to the elimination of inception-to-date information and the other remaining disclosure requirements of Topic 915 should be applied retrospectively except for the clarification to Topic 275, which shall be applied prospectively. These amendments are effective for annual reporting periods beginning after December 15, 2014, and interim periods therein.

The amendment eliminating the exception to the sufficiency-of-equity-at-risk criterion for development stage entities in paragraph 810-10-15-16 should be applied retrospectively for annual reporting periods beginning after December 15, 2015 and interim periods therein. Early application of each of the amendments is permitted for any annual reporting period or interim period for which the entity's financial statements have not yet been issued. The Company has adopted ASU 2014-10 in the fourth quarter of 2014 and does not expect this adoption to have a material impact on its consolidated financial condition, results of operations or cash flows.

In August 2014, the FASB issued ASU No. 2014-15, *Presentation of Financial Statements-Going Concern (Subtopic 205-40), Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*. The objective of the amendments in this Update is to provide guidance on determining when and how to disclose going-concern uncertainties in the financial statements. The new standard requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date the financial statements are issued. An entity must provide certain disclosures if "conditions or events raise substantial doubt about the entity's ability to continue as a going concern." The ASU applies to all entities and is effective for annual periods ending after December 15, 2016, and interim periods thereafter, with early adoption permitted. The Company is evaluating the impact of ASU 2014-15 on its consolidated financial condition, results of operations and cash flows.

### **Note 3 – Recent Accounting Pronouncements (continued)**

In September 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update No. 2015-16 (ASU 2015-16) "Simplifying the Accounting for Measurement Period Adjustments". ASU 2015-16 require that an acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amounts are determined. The amendments in ASU 2015-16 require that the acquirer record, in the same period’s financial statements, the effect on earnings of changes in depreciation, amortization, or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date. The amendments in ASU 2015-16 require an entity to present separately on the face of the income statement or disclose in the notes the portion of the amount recorded in current-period earnings by line item that would have been recorded in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. For public business entities, the amendments in ASU 2015-16 are effective for fiscal years beginning after December 15, 2015, including interim periods within those fiscal years. The amendments in ASU 2015-16 should be applied prospectively to adjustments to provisional amounts that occur after the effective date of this update with earlier application permitted for financial statements that have not been issued. For all other entities, the amendments in ASU 2015-16 are effective for fiscal years beginning after December 15, 2016, and interim periods within fiscal years beginning after December 15, 2017. The amendments in ASU 2015-16 should be applied prospectively to adjustments to provisional amounts that occur after the effective date of this update with earlier application permitted for financial statements that have not yet been made available for issuance.

### **Note 4 – Intangible Assets**

On July 24, 2014, the Company executed a Collaboration & Exclusivity Agreement with Cannabics, Inc. (“Cannabics”), a Delaware corporation and largest shareholder of the Company. Per the terms of the Agreement, the Company has issued 18,239,594 shares of its common stock to acquire the entire institutional knowledge of Cannabics, Inc., which primarily consists of the human Brain Trust in its team of experts, the cumulative result of their years of scientific knowledge in the fields of Molecular Biology, Cancer and Pharmacology research. Additionally Cannabics tendered \$150,000 to the Company specifically earmarked as working funds towards prospective short-term projects of the Company.

Since that time, Management has determined that fair value measurement is not allowable where there are entities under common control and cost should be used based on the carrying book value of the seller’s intangible. The only value ascribed to this transaction was the cash received for the transfer of the additional shares to the controlling parent company.

### **Note 5 – Related Party Transactions**

On October 7, 2015, the Company executed an Intellectual Property & Subsidiary Assignment and an Assignment & Assumption of Debt & Liabilities Agreement with Cannabics, Inc., a Delaware Corporation, related party, and majority holder of the Issuer. Said Agreements were executed as part of a restructuring of the Company, whereby the Research and Development components were at that time made separate from the Issuer’s continuing business operations.

On February 22, 2016, the Company and Cannabics Inc., a Delaware Corporation, related party, and majority holder of the Issuer did execute a Rescission Agreement, wholly rescinding the previous Agreements noted supra. As such, all Intellectual Property, provisional patents, assigned Debts and the Company’s Subsidiary “Grin Ultra Ltd.” has been reincorporated as part of the company.

During the year ended August 31, 2016 and August 31 2015, the Company paid a total of \$38,833 and \$24,500, respectively, consulting fees and salary to one of its directors.

Cannabics Inc. (the parent company) balance at August 31, 2016 and 2015 was \$224,483. The advance is due on demand and bears no interest.

As of August 31, 2016, an officer and director of the Company owes the Company \$1,849.

## Note 6 – Commitments and Contingencies

The Company signed an agreement with the “Technion Research and Development Foundation” on February 15, 2015 for \$130,000 to perform research and development for advanced cannabinoid based therapies. By the fiscal year end of 2016 the company has paid a total \$65,000 and additional \$10,000 in September 2016, and the full balance in November, 2016, with no balance remaining.

As security for its obligation under a lease agreement the Company’s subsidiary provided a bank guarantee in the amount of \$5,000.

## Note 7 – Stockholders’ Equity (Deficit)

### Authorized Shares

The Company is authorized to issue up to 900,000,000 shares of common stock par value \$0.0001 per share. Each outstanding share of common stock entitles the holder to one vote per share on all matters submitted to a stockholder vote. All shares of common stock are non-assessable and non-cumulative, with no pre-emptive rights. The Company’s initial Article authorized 5,000,000 preferred shares at .0001 par value, no other attributes have been assigned and no such shares have ever been issued.

### Common Stock

During the year ended August 31, 2015, the Company issued 713,333 shares of its common stock to 2 investors for cash of \$128,333, or an average of \$0.18 per share. 313,333 shares were issued to one investor in September and November 2014 and 400,000 were issued to the second investor in August 2015. This 400,000 issuance included 1.6 million warrants.

During the year ended August 31, 2015, the Company issued 540,000 shares of its common stock to 8 consultants for services rendered at a fair value of \$83,123, or an average of \$0.16 per share.

During the year ended August 31, 2016, the Company issued 3,133,332 shares to 11 people at \$.03 per share for a total of \$94,000.

During the year ended August 31, 2016, the Company issued 1,290,000 shares of its common stock to 6 consultants for services rendered at a fair value of \$47,550 or an average of \$0.037 per share. These service fees were accounted for as costs of investments.

In May 2016 the Company issued 1,100,000 Shares in full conversion of a Promissory Note due to a Holder which converted at \$0.02 per share per the terms of the Note.

In August 2016 the Company issued 195,238 shares to a previous investor per the terms of his original investment with the Company. The shares are issued as part of the “Ratchet Clause” of the Subscription Agreement. The amount of shares is derived by looking backwards at the 20 day VWAP on the 9 month anniversary of initial funding.

## Note 8 – Warrants

As part of the Company's private placements and equity sales the Company issued warrants, as follows:

1. In August 2015, the Company issued 1,600,000 non-transferable Common Stock warrants to an investor. Each Common Stock warrant can be exercised into one share at an exercise price of \$0.20 per warrant and is exercisable until August 10, 2016 issuance price. The fair value of the warrants are estimated using the Black Scholes option-pricing model with the following assumptions:

PV of exercise Share price	\$0.198
Expected Volatility	100%
Risk Free Interest Rate	0.721%
Expected Term (years)	1.0
Expected Dividend Yield	0%

**Note 8 – Warrants (continued)**

2. In February 2016, the Company issued 11,974,333 non-transferable Common Stock warrants to investors as part of their Subscription rights. Each Common Stock warrant can be exercised into one share at an exercise price of \$0.03 per warrant, and are exercisable until various dates between August 2016 and February 2018. The fair value of the warrants are estimated using the Black Scholes option-pricing model with the following assumptions:

PV of exercise Share price	\$0.0387
Expected Volatility	16.56%
Risk Free Interest Rate	0.65%
Expected Term (years)	2.0
Expected Dividend Yield	0%

3. As of August 31, 2016, the Company had outstanding warrants exercisable for 7,974,337 shares of common stock at exercise prices of \$0.03 per share and expiring at various dates between February, 2017 and February 2018.

The following table presents the warrant activity for the years ended August 31, 2016 and 2015.

	2016		2015	
	Number of Warrants	Weighted Average Exercise Price	Number of Warrants	Weighted Average Exercise Price
Warrants outstanding as of September 1	1,600,000	\$ 0.20	–	–
Issued	11,974,333	\$ 0.03	1,600,000	\$ 0.20
Exercised	–	–	–	–
Expired	(5,599,996)	\$ 0.08	–	–
Warrants outstanding as of August 31	<u>7,974,337</u>	\$ 0.03	<u>1,600,000</u>	\$ 0.20
Warrants exercisable as of August 31	<u>7,974,337</u>	\$ 0.03	<u>1,600,000</u>	\$ 0.20

4. As of August 31, 2016, 66,667 warrants are accounted for as a derivative liability with a fair value of \$1,356. The intrinsic value of these warrants was \$1,333 at August 31, 2016. The fair value of the warrants are estimated using the Black Scholes option-pricing model with the following assumptions:

PV of exercise Share price	\$0.03
Expected Volatility	16.56%
Risk Free Interest Rate	0.81%
Expected Term (years)	1.4
Expected Dividend Yield	0%

**Note 9 – Income Taxes**

Taxes on income included in the consolidated statements of operations represent current taxes due to taxable income of the Company and its Subsidiary.

**Corporate taxation in the U.S.**

The applicable corporate tax rate for the Company is 34%.

No provision for income tax was made for the period from September 15, 2004 (Inception) to August 31, 2016 as the Company had cumulative operating losses. For the years ended August 31, 2016 and 2015, the Company incurred net losses for tax purposes of approximately \$162,000 and \$412,000, respectively. Under U.S. tax laws, subject to certain limitations, carry forward tax losses expire 20 years after the year in which incurred. In the case of the Company, subject to potential limitations in accordance with the relevant law, the net loss carry forward will expire in the years 2032 through 2036.

**Note 9 – Income Taxes (continued)****Corporate taxation in Israel:**

The Subsidiary is taxed in accordance with Israeli tax laws. The corporate tax rate applicable to 2016 and 2015 is 25% and 26.5% respectively.

In January 2016, the Law for the Amendment of the Income Tax Ordinance (No. 216) was published, enacting a reduction of corporate tax rate beginning in 2016 and thereafter, from 26.5% to 25%. There is no impact on the financial statements of the Company as a result of the changes in the Israeli corporate tax rate as the Subsidiary is in a loss position for tax purposes.

As of August 31, 2016, the Subsidiary has an accumulated tax loss carry forward of approximately \$274,000 (as of August 31, 2015, approximately \$130,000). Under the Israeli tax laws, carry forward tax losses have no expiration date.

The income tax expense (benefit) differs from the amount computed by applying the United States Statutory corporate income tax rate as follows:

	<b>For the Year Ended August 31,</b>	
	<b>2016</b>	<b>2015</b>
United States statutory corporate income tax rate	34.0%	34.0%
Change in valuation allowance on deferred tax assets	-34.0%	-34.0%
Provision for income tax	-%	-%

Deferred income taxes reflect the tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for tax purposes. The components of the net deferred income tax assets are approximately as follows:

	<b>August 31,</b>	
	<b>2016</b>	<b>2015</b>
<b>US Deferred income tax assets:</b>		
Net operating loss carry forwards benefit	\$ 446,024	\$ 390,850
Valuation allowance	(446,024)	(390,850)
<b>Net deferred income tax assets</b>	<b>\$ –</b>	<b>\$ –</b>
<b>Outside US Deferred income tax assets:</b>		
Net operating loss carry forwards benefit	\$ 70,564	\$ 34,338
Valuation allowance	(70,564)	(34,338)
	<b>\$ –</b>	<b>\$ –</b>
<b>Consolidated Deferred income tax assets:</b>		
Net operating loss carry forwards benefit	\$ 516,588	\$ 425,189
Valuation allowance	(516,588)	(425,189)
<b>Net deferred income tax assets</b>	<b>\$ –</b>	<b>\$ –</b>

**Note 9 – Income Taxes (continued)**

The amount taken into income as deferred income tax assets must reflect that portion of the income tax loss carry forwards that is more likely than not to be realized from future operations. The Company has established a full valuation allowance on its net deferred tax assets because of a lack of sufficient positive evidence to support its realization. The valuation allowance increased by \$81,908 and \$183,940 for the years ended August 31, 2016 and 2015, respectively.

No provision for income taxes has been provided in these financial statements due to the net loss for the years ended August 31, 2016 and 2015. At August 31, 2016, the Company has net operating loss carry forwards of approximately \$1,586,319 which expire commencing 2032. The potential tax benefit of these losses may be limited due to certain change in ownership provisions under Section 382 of the Internal Revenue Code (“IRS”) and similar state provisions.

IRS Section 382 places limitations (the “Section 382 Limitation”) on the amount of taxable income which can be offset by net operating loss carry forwards after a change in control (generally greater than 50% change in ownership) of a loss corporation. Generally, after a change in control, a loss corporation cannot deduct operating loss carry forwards in excess of the Section 382 Limitation. Due to these “change in ownership” provisions, utilization of the net operating loss and tax credit carry forwards may be subject to an annual limitation regarding their utilization against taxable income in future periods. The Company has not concluded its analysis of Section 382 through August 31, 2016, but believes the provisions will not limit the availability of losses to offset future income.

The Company is subject to income taxes in the U.S. federal jurisdiction and is subject to examination for a period of three years for current filings and indefinitely for any delinquent filings. The tax regulations within each jurisdiction are subject to interpretation of related tax laws and regulations and require significant judgment to apply. The Company estimates that the amount of penalties, if any, will not have a material effect on the results of operations, cash flows or financial position. No provisions have been made in the financial statements for such penalties, if any.

**Note 10 – Subsequent Events**

On September 20<sup>th</sup>, 2016, the Company received \$11,000- in the form of a Promissory Note. The terms of the Note are without interest and if not repaid prior to January 1<sup>st</sup>, 2017, is convertible at a 50% discount to the then market price of the company’s common stock.

The Company has evaluated subsequent events through the date the financial statements were issued and filed with the Securities and Exchange Commission. The Company has determined that there are no other such events that warrant disclosure or recognition in the financial statements.

**Note 11 – Financial expenses**

	<b>For the year Ended August 31, 2016</b>	<b>For the year Ended August 31, 2015</b>
Interest and bank charges	\$ 7,178	\$ 3,026
Loss from warrants evaluation	712	–
Amortization of discount	20,000	–
Currency exchange differences loss ( gain )	(1,386)	1,861
	<u>\$ 26,504</u>	<u>\$ 4,887</u>

## Item 12. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

### Item 12a. Controls and Procedures

#### Evaluation of Disclosure Controls and Procedures

In connection with the preparation of this Annual Report, an evaluation was carried out by Cannabics Pharmaceuticals Inc.'s management, with the participation of the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 ("Exchange Act")) as of August 31, 2016. Disclosure controls and procedures are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC rules and forms and that such information is accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, to allow timely decisions regarding required disclosures.

Based on that evaluation, the Company's management concluded, as of the end of the period covered by this report, that the Company's disclosure controls and procedures were not effective.

#### Management's Report on Internal Control Over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rule 13a-15(f) and Rule 15d-15(f) promulgated under the Exchange Act as a process designed by, or under the supervision of, the Company's principal executive and principal financial officers, or persons performing similar functions, and effected by the Company's Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The Company's internal control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the Company's assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures are being made only in accordance with authorizations of management and the Board of Directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

The Company's management conducted an assessment of the effectiveness of the Company's internal control over financial reporting as of August 31, 2016, based on criteria established in *Internal Control – Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). As a result of this assessment, management identified material weaknesses in internal control over financial reporting.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis.

The material weaknesses identified are described below.

**Procedures for Control Evaluation.** Management has not established with appropriate rigor the procedures for evaluating internal controls over financial reporting. Due to limited resources and lack of segregation of duties, documentation of the limited control structure has not been accomplished.

**Lack of Audit Committee.** To date, the Company has not established an Audit Committee. It is management's view that such a committee, including a financial expert, is an utmost important entity level control over the financial reporting process.

***Insufficient Documentation of Review Procedures*** We employ policies and procedures for reconciliation of the financial statements and note disclosures, however, these processes are not appropriately documented. The Company has only one individual responsible for the preparation of the financial records.

***Insufficient Information Technology Procedures.*** Management has not established methodical and consistent data back-up procedures to ensure loss of data will not occur.

As a result of the material weaknesses in internal control over financial reporting described above, the Company's management has concluded that, as of August 31, 2016, the Company's internal control over financial reporting was not effective based on the criteria in Internal Control – Integrated Framework issued by COSO.

This Annual Report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting. We were not required to have, nor have we, engaged our independent registered public accounting firm to perform an audit of internal control over financial reporting pursuant to the rules of the Securities and Exchange Commission that permit us to provide only management's report in this Annual Report.

#### **Changes in Internal Control Over Financial Reporting**

As of the end of the period covered by this report, there have been no changes in internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act) during the year ended August 31, 2016, that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## PART III

### Item 13. Directors, Executive Officers, Promoters and Control Persons; Compliance With Section 16(A) of the Exchange Act

The following individuals serves as Directors and Executive Officers of the Company as of the date of this Annual Report. Directors of the Company hold office until the next annual meeting of our shareholders or until their successors have been elected and qualified. Executive officers of the Company are appointed by our board of directors and hold office until their death, resignation or removal from office.

<b>Name</b>	<b>Position</b>	<b>Age</b>	<b>Held Position Since</b>
Dr. Eyal Ballan	Director, CTO	42	April 29, 2014
Itamar Borochoy	Director, CEO	57	April 29, 2014
Uri Ben-Or	CFO	44	November 05, 2016

Dr. Eyal Ballan, 42, is a co-founder of Cannabics Inc. and is its CTO. Dr. Ballan holds a Ph.D. in Neurophysiology, EEG, Brain Wave Analysis and Cortical Connectivity. After obtaining his Ph.D. he was an entrepreneur in the field of Biofeedback Studies and developed a Resonating Neuro-Feedback system. Dr. Ballan holds a M.Sc. from Tel-Aviv University - Magna Cum Laude - in anticancer drug development. Dr. Ballan was part of the renowned research team which developed Salirasib (Treatment for Non-Small Cell Lung Cancer). He is an expert in molecular biology, cell cultures and genomics with a focus towards identification of anticancer compounds and delivery systems to tumors and a member of the American Neurology Association.

Itamar Borochoy, 57, is a co-founder of Cannabics Inc. and is its Chief Marketing Officer. Mr. Borochoy is a known environmentalist with experience as an entrepreneur in the fields of organic agricultural and medical botanicals and brings vast expertise in the areas of market intelligence and organizational branding.

Uri Ben-Or, 46 CPA, MBA - CFO, has More than 15 years of experience as CFO of public and private companies in the life science and Medical Device Industry. Uri has significant expertise in public Life Science companies traded on the TASE and serve as the acting CFO of some of In addition Uri has strong finance, operation, and business development background in both startups and public global companies in the US, Europe, and Israel including developing strategic policy and guidance with respect to corporate structure and fundraising

All directors serve for terms of one year each, and are subject to re-election at Annual Meeting of Shareholders, unless they earlier resign.

There are no material proceedings to which any of our directors, officers or affiliates, any owner of record or beneficially of more than five percent of any class of our voting securities, or any associate of any such director, officer, affiliate, or security holder is a party adverse to us or any of our subsidiaries or has a material interest adverse to us or any of our subsidiaries.

We have attempted and will continue to attempt to insure that any transactions between we and our officers, directors, principal shareholders, or other affiliates have been and will be on terms no less favorable to us than could be obtained from unaffiliated third parties on an arm's length basis.

#### **Involvement in Certain Legal Proceedings**

Except as noted herein or below, during the last ten (10) years none of our directors or officers have:

- (1) had any bankruptcy petition filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time;
- (2) been convicted in a criminal proceeding or subject to a pending criminal proceeding;
- (3) been subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities or banking activities; or

(4) been found by a court of competent jurisdiction in a civil action, the Commission or the Commodity Futures Trading Commission to have violated a federal or state securities or commodities law, and the judgment has not been reversed, suspended, or vacated.

All of these filing requirements were satisfied by the Company's officers, directors, and ten-percent holders.

In making these statements, we have relied on the written representation of our Directors and Officers or copies of the reports that they have filed with the Commission.

### **Committees of the Board**

All proceedings of the board of directors for the fiscal year ended August 31, 2016 were conducted by resolutions consented to in writing by our board of directors and filed with the minutes of the proceedings of our board of directors. Our company currently does not have nominating, compensation or audit committees or committees performing similar functions nor does our company have a written nominating, compensation or audit committee charter. Our board of directors does not believe that it is necessary to have such committees because it believes that the functions of such committees can be adequately performed by the board of directors.

The Company does not have any defined policy or procedure requirements for shareholders to submit recommendations or nominations for directors. The Company's board of directors believes that, given the stage of our development, a specific nominating policy would be premature and of little assistance until our business operations develop to a more advanced level. The Company does not currently have any specific or minimum criteria for the election of nominees to the board of directors and we do not have any specific process or procedure for evaluating such nominees. The board of directors will assess all candidates, whether submitted by management or shareholders, and make recommendations for election or appointment.

A shareholder who wishes to communicate with the Company's board of directors may do so by directing a written request addressed to any of our Directors at the address appearing on the first page of this registration statement.

### **Audit Committee Financial Expert**

We do not have a standing audit committee. Our directors perform the functions usually designated to an audit committee. Our board of directors has determined that we do not have a board member that qualifies as an "audit committee financial expert" as defined in Item 407(d)(5) of Regulation S-K, nor do we have a board member that qualifies as "independent" as the term is used in Item 7(d)(3)(iv)(B) of Schedule 14A under the Securities Exchange Act of 1934, as amended, and as defined by Rule 4200(a)(14) of the NASD Rules.

We believe that our board of directors is capable of analyzing and evaluating our financial statements and understanding internal controls and procedures for financial reporting. Our board of directors does not believe that it is necessary to have an audit committee because management believes that the functions of an audit committees can be adequately performed by the board of directors. In addition, we believe that retaining an independent director who would qualify as an "audit committee financial expert" would be overly costly and burdensome and is not warranted in our circumstances given the stage of our development and the fact that we have not generated positive cash flow to date.

As we generate revenue in the future, we intend to form a standing audit committee and identify and appoint a financial expert to serve on our audit committee.

### **Code of Ethics**

The Company has adopted a Code of Ethics for Senior Financial Officers that is applicable to our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions.

### **Indemnification**

Under our Articles of Incorporation and Bylaws of the corporation, we may indemnify an officer or director who is made a party to any proceeding, including a law suit, because of his position, if he acted in good faith and in a manner he reasonably believed to be in our best interest. We may advance expenses incurred in defending a proceeding. To the extent that the officer or director is successful on the merits in a proceeding as to which he is to be indemnified, we must indemnify him against all expenses incurred, including attorney's fees. With respect to a derivative action, indemnity may be made only for expenses actually and reasonably incurred in defending the proceeding, and if the officer or director is judged liable, only by a court order. The indemnification is intended to be to the fullest extent permitted by the laws of the State of Nevada.

Regarding indemnification for liabilities arising under the Securities Act of 1933, which may be permitted to directors or officers under Nevada law, we have been advised that, in the opinion of the Securities and Exchange Commission, indemnification is against public policy, as expressed in the Act and is, therefore, unenforceable.

#### Item 14. Executive Compensation

We have begun to pay monthly salaries to one of our Directors and Counsel as of August, 2015. For the current year ending August 31, 2016, only one Director received a yearly payment of \$38,833 for FY 2016. We have no employment agreements with any of our officers. We do not contemplate entering into any employment agreements until such time as we have positive and stable cash flows.

There are no stock option plans, retirement, pension, or profit sharing plans for the benefit of our officers or directors. We do not have any long-term incentive plans that provide compensation intended to serve as incentive for performance.

Summary Compensation Table

Name and Principal Position	Year	Salary	Bonus	Stock Awards	All Other Compensation	Total
				(1)	(2)	
Eyal Ballan, Director, CTO	2016	\$ 38,833	\$ –	\$ –	\$ –	\$ 38,833
Eyal Ballan, Director, CTO	2015	\$ 24,500	\$ –	\$ –	\$ –	\$ 24,500

The following table sets forth, as of November 28<sup>th</sup>, 2016, information concerning ownership of our securities by (i) each director, (ii) each executive officer, (iii) all directors and executive officers as a group; and (iv) each person known to us to be the beneficial owner of more than five percent of each class:

The number and percentage of shares beneficially owned includes any shares as to which the named person has sole or shared voting power or investment power and any shares that the named person has the right to acquire within 60 days.

Name of Beneficial Owner	Beneficial Ownership	
	Common Shares	Percentage of class
Cannabics Inc. *	88,289,594	86.4%

\*Our 2 Directors Dr. Eyal Ballan and Itamar Borochoy are also Directors of Cannabics, Inc. The mailing address for all directors, executive officers and beneficial owners of more than 5% of our common stock is #3 Bethesda Metro Center, Suite 700, Bethesda, Maryland, 20814.

\*The Directors of the Company hold positions in Cannabics, Inc., the majority holder. The relative positions of Cannabics, Inc. are listed below:

Shareholder	Common Stock	% Issued
Eyal Barad	316	26.27%
Eyal Ballan	239	19.84%
Shay Avraham Sarid	235	19.51%
Itamar Borochoy	235	19.51%
Seach Sarid Ltd.	40	3.32%
Ariel Kirtchuk	25	2.08%
J Riger Ltd	114	9.49%
<b>Total</b>	<b>1,205</b>	<b>100.00%</b>

Unless otherwise noted, we believe that all persons or entities named in the table have sole voting and investment power with respect to all shares of common stock beneficially owned by them. For purposes hereof, a person is considered to be the beneficial owner of securities that can be acquired by such person within 60 days from the date hereof.

#### **Item 15. Certain Relationships and Related Transactions, and Director Independence**

On June 24, 2013, the Company sold 40,000,000 shares of its common stock for \$100,000 through a private placement to Ophion Management Ltd., a Canadian corporation controlled by Thomas Mills, who is also the controlling shareholder of the Company. On June 28, 2013, the private placement was rescinded by agreement and a promissory note for the principal amount of \$100,000 (the "Promissory Note") was issued by the Company to Ophion Management Ltd. The Promissory Note was due on demand and accrued simple interest at the rate of 20% per year from June 20, 2013. The Promissory Note was assigned to Mr. Mills on October 7, 2014.

On October 24, 2013, the Company entered into a debt restructuring agreement with Mr. Mills, whereby he agreed to surrender the Promissory Note for cancellation. In exchange for the Promissory Note, the Company agreed to issue a convertible promissory note with a fixed maturity date of December 31, 2018 (the "Convertible Note"). The Convertible Note, accrues simple interest at the rate of 20% per annum from June 20, 2013, and is convertible at any time by the holder of the Convertible Note into shares of the Company's common stock at the rate of one share for each \$0.005 of indebtedness secured by the convertible note.

On October 28, 2013, the Promissory Note was cancelled and the Convertible Note was issued.

On November 20, 2013, the Convertible Note was rescinded by mutual agreement and the Company accepted a subscription from Mr. Mills for 40,000,000 shares of its common stock at a price of \$0.0025 per share in full consideration of the \$100,000 he advanced to the Company on June 20, 2013.

No other material related party transactions between the Company and its officers, directors or control persons occurred during the fiscal years ended August 31, 2016 and 2015.

#### **Item 16. Principal Accounting Fees and Services**

##### **Audit Fees**

The aggregate fees billed by Weinberg & Baer for professional services rendered for the audit of our annual financial statements included in this Annual Report on Form 10-K for the fiscal year ended August 31, 2016 and 2015 were \$13,500 and \$7,500, respectively.

##### **Audit Related Fees**

For the fiscal years ended August 31, 2015, the aggregate fees billed for assurance and related services by Fruci & Associates II, PLLC relating to our quarterly financial statements which are not reported under the caption "Audit Fees" above, were \$20,636.

##### **Tax Fees**

For the fiscal years ended August 31, 2016 and 2015, the Company paid fees of \$1,000 for tax compliance.

##### **All Other Fees**

For the fiscal years ended August 31, 2016 and 2015, the Company did not pay any other fees.

Effective May 6, 2003, the Securities and Exchange Commission adopted rules that require that before Weinberg and Bear is engaged by us or our subsidiaries to render any auditing or permitted non-audit related service, the engagement be:

- approved by our audit committee; or
- entered into pursuant to pre-approval policies and procedures established by the audit committee, provided the policies and procedures are detailed as to the particular service, the audit committee is informed of each service, and such policies and procedures do not include delegation of the audit committee's responsibilities to management.

We do not have an audit committee. Our Board of Directors pre-approves all services provided by our independent auditors. All of the above services and fees were reviewed and approved by our Board of Directors either before the respective services were rendered.

**CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER PURSUANT TO 18 U.S.C. SECTION 1350,  
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Itamar Borochoy, certify that:

1. I have reviewed this Form 10-K of CANNABICS PHARMACEUTICALS INC.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods present in this report;
4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13-a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involved management or other employees who have a significant role in the registrant's internal control over financial reporting.
