Note 1 – Nature of Business, Presentation and Going Concern

Organization

Cannabics Pharmaceuticals Inc. (the "Company"), was incorporated in the State of Nevada, on September 15, 2004, under the name of Thrust Energy Corp. The Company was originally engaged in the exploration, exploitation, development and production of oil and gas projects within North America, but was unable to operate profitably.

On April 25, 2014, the Company experienced a change in control. Cannabics, Inc. ("Cannabics") acquired a majority of the issued and outstanding common stock of the Company in accordance with stock purchase agreements by and between Cannabics and Thomas Mills ("Mills"). On the closing date, April 25, 2014, pursuant to the terms of the Stock Purchase Agreement, Cannabics purchased from Mills 20,500,000 shares of the Company's outstanding restricted common stock for \$198,000, representing 51%.

On May 21, 2014, the Company changed its name, via merger in the state of Nevada, to Cannabics Pharmaceuticals Inc. As of May 21, 2014, the Company has changed its course of business to laboratory research and development.

On July 31, 2014, Cannabics Pharmaceuticals Inc. filed its exclusive Patent Application with the US Patent & Trademark Office (USPTO), which covers the proprietary technology developed by its team of experts in the field of cannabinoid long acting lipid based formulations. This patent is the basis for the company's "CANNABICS SR" technology, which consists of the IP for standardized and long acting medical cannabis capsules, designed for patients suffering from diverse indications. Simultaneously this Patent was filed with the PCT division of the Israeli Patent Office (ILPO) in order to provide International IP protection.

On August 25, 2014, the Company organized G.R.I.N. Ultra Ltd. ("GRIN"), an Israeli corporation, as a wholly-owned subsidiary. GRIN provides research and development activities for the Company's products in Israel.

On October 7th, 2015, the Company executed an Intellectual Property & Subsidiary Assignment and an Assignment & Assumption of Debt & Liabilities Agreement with Cannabics, Inc., a Delaware Corporation, related party, and majority holder of the Issuer. Said Agreements were executed as part of a restructuring of the Company, whereby the Research and Development components were at that time made separate from the Issuer's continuing business operations. Per the Agreements, Cannabics, Inc. has assumed \$362,000 of the Issuer's debts and liabilities in return for Assignment of the provisional patent noted above related to High Throughput Screening and the Issuer's subsidiary "Grin Ultra, Ltd."

As a result of the October 7th, 2015, the Intellectual Property & Subsidiary Assignment and an Assignment of Debt & Liabilities Agreement executed with Cannabics, Inc., the results from the former subsidiary were presented as a discontinued operation.

Stock Split

On June 3, 2014, the Company's Board of Directors declared a two-to-one forward stock split of all outstanding shares of common stock. The stock split was approved by FINRA on June 25, 2014. The effect of the stock split increased the number of shares of common stock outstanding from 40,880,203 to 81,760,406. All common share and per common share data in these financial statements and related notes hereto have been retroactively adjusted to account for the effect of the stock split for all periods presented prior to June 3, 2014. The total number of authorized common shares and the par value thereof was not changed by the split.

Basis of Presentation

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP") for interim financial statement presentation and in accordance with Form 10-Q. Accordingly, they do not include all of the information and footnotes required in annual financial statements. In the opinion of management, the unaudited financial statements contain all adjustments (consisting only of normal recurring accruals) necessary to present fairly the financial position and results of operations and cash flows. The results of operations presented are not necessarily indicative of the results to be expected for any other interim period or for the entire year.

These unaudited financial statements should be read in conjunction with our 2015 annual financial statements included in our Form 10-K, filed with the U.S. Securities and Exchange Commission ("SEC") on January 5th, 2016.

CANNABICS PHARMACEUTICALS INC.
Notes to Consolidated Financial Statements
November 30, 2015
(Unaudited)

Note 1 – Nature of Business, Presentation and Going Concern (Continued)

Principles of Consolidation

The consolidated financial statements include the accounts of Cannabics Pharmaceuticals Inc., its former wholly-owned subsidiary, G.R.I.N. Ultra Ltd is presented in this report as discontinued operation. All significant inter-company balances and transactions have been eliminated in consolidation.

Going Concern

The accompanying unaudited financial statements have been prepared on a going concern basis, which contemplate the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has incurred a net profit of \$440,919 for the three months ended November 30, 2015 and has incurred cumulative losses since inception of \$838,219. These conditions raise substantial doubt about the ability of the Company to continue as a going concern.

The ability of the Company to continue as a going concern is dependent upon its abilities to generate revenues, to continue to raise investment capital, and develop and implement its business plan. No assurance can be given that the Company will be successful in these efforts .

The unaudited financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. Management believes that actions presently being taken to obtain additional funding and implement its strategic plans provide the opportunity for the Company to continue as a going concern. No assurance can be given that the Company will be successful in these efforts.

Reclassifications

Certain amounts in the prior period financial statements have been reclassified to conform to the current period presentation. These reclassifications had no effect on reported losses, total assets, or stockholders' equity as previously reported.

Note 2 – Related Party Transactions

On October 7th, 2015, the Company executed an Intellectual Property & Subsidiary Assignment and an Assignment & Assumption of Debt & Liabilities Agreement with Cannabics, Inc., a Delaware Corporation, related party, and majority holder of the Issuer. Said Agreements were executed as part of a restructuring of the Company, whereby the Research and Development components were at that time made separate from the Issuer's continuing business operations.

Per the Agreements, Cannabics, Inc. has assumed \$362,000 of the Issuer's debts and liabilities in return for Assignment of the provisional patent noted above related to High Throughput Screening and the Issuer's subsidiary "Grin Ultra, Ltd.". The Company believes that by eradicating significant current debts and liabilities from the Issuer along with this new division of labor in corporate structure, it is better enabled to focus its energies on current licensing opportunities and agreements already in place, particularly in its world-wide licensing of Cannabics SR capsule technology.

Note 3 – Discontinued Operations

As described in note 1, the Intellectual Property & Subsidiary Assignment and an Assignment of Debt & Liabilities Agreement executed with Cannabics, Inc., the results from the former subsidiary were presented as discontinued operation.

This multilayer method is producing a large-scale database that will capture the knowledge gained as to the unique effects of different combinations of cannabinoid compounds on diverse malignancies. Coextensive with the development of the automated high-throughput system, we are also developing proprietary and novel compounds targeting diverse and specific types of tumors. For the Three Months Ended November 30, 2015 and 2014

Revenues

The income of \$491,577, for the three months ended November 30, 2015, is from the Intellectual Property & Subsidiary Assignment and Assignment & of Debt & Liabilities Agreements executed with Cannabics, Inc. (discontinued operation). This amount includes the \$362,000 as mentioned above and the \$129,577 gain from the disposal of the subsidiary. No revenue was reported during the 3 month period ending November 30, 2014. Total comprehensive profit for the three months ended November 30, 2015 was \$440,919 compared to \$127,658 loss in the 3 month period ending November 30, 2014. The main change is due to the income from the discontinued operation and the Intellectual Property assignment as described above and in note 1 to our financial statements.

Operating Expenses

For the 3 months ended November 30, 2015 the total operating expenses were \$50,658 compared to \$83,587 at the same period in 2014. This change is mainly due to a decrease of marketing expenses from \$31,000 to \$491 due to the fact that the company hasn't initiated any marketing activity during the last 3 month period.

Liquidity and Capital Resources

Overview

As of November 30, 2015, the Company had \$9,728 in cash compared to \$23,926 on November 30 2014. We do not have sufficient resources to effectuate our business. We expect to incur a minimum of \$500,000 in expenses during the next twelve months of operations. We estimate that these expenses will be comprised primarily of general expenses including overhead, legal, accounting fees, and marketing expenses.

Liquidity and Capital Resources during the Three Months Ended November 30, 2015 compared to the Three Months ended November 30, 2014

We used cash in operations of \$35,501 for the three months ended November 30, 2015 compared to \$126,109 cash used in operations during the comparable period in 2014. We did not use any cash in investing activities during the three months ended November 30, 2015, and \$3,710 during the 3 months ending November 30 2014.

Cash generated in our financing activities was \$20,000 consisting of proceeds from a promissory note, compared to \$78,333 cash generated from proceeds of common stock during the comparable period in 2014. There was cash used in discontinued operations of 16,478 in the 3 month ending November 30th 2014

We will have to raise funds to pay for our expenses. We may have to borrow money from shareholders or issue debt or equity or enter into a strategic arrangement with a third party. There can be no assurance that additional capital will be available to us. We currently have no arrangements or understandings with any person to obtain funds through bank loans, lines of credit or any other sources. Since we have no such arrangements or plans currently in effect, our inability to raise funds for our operations will have a severe negative impact on our ability to remain a viable company.

Going Concern

Due to the uncertainty of our ability to meet our current operating and capital expenses, our independent auditors included an explanatory paragraph in their report on the audited financial statements for the year ended August 31, 2015 regarding concerns about our ability to continue as a going concern. Our financial statements contain additional note disclosures describing the circumstances that lead to this disclosure by our independent auditors.

Our unaudited financial statements have been prepared on a going concern basis, which assumes the realization of assets and settlement of liabilities in the normal course of business. Our ability to continue as a going concern is dependent upon our ability to generate profitable operations in the future and/or to obtain the necessary financing to meet our obligations and repay our liabilities arising from normal business operations when they become due. The outcome of these matters cannot be predicted with any certainty at this time and raise substantial doubt that we will be able to continue as a going concern. Our unaudited financial statements do not include any adjustments to the amount and classification of assets and liabilities that may be necessary should we be unable to continue as a going concern.

There is no assurance that our operations will be profitable. Our continued existence and plans for future growth depend on our ability to obtain the additional capital necessary to operate either through the generation of revenue or the issuance of additional debt or equity.

Off-Balance Sheet Arrangements

We currently have no off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires us to make a number of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Such estimates and assumptions affect the reported amounts of revenues and expenses during the reporting period. We base our estimates on historical experiences and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions and conditions. We continue to monitor significant estimates made during the preparation of our financial statements. On an ongoing basis, we evaluate estimates and assumptions based upon historical experience and various other factors and circumstances. We believe our estimates and assumptions are reasonable in the circumstances; however, actual results may differ from these estimates under different future conditions.

See Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations" and Note 2, "Summary of Significant Accounting Policies" in our audited consolidated financial statements for the year ended August 31, 2015, included in our Annual Report on Form 10-K as filed on January 7th, 2016, for a discussion of our critical accounting policies and estimates.

Item 4. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures

In connection with the preparation of this Quarterly Report on Form 10-Q, an evaluation was carried out by the Company's management, with the participation of the principal executive officer and the principal financial officer, of the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 ("Exchange Act")) as of November 30, 2015. Disclosure controls and procedures are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to management, including the chief executive officer and the chief financial officer, to allow timely decisions regarding required disclosures.

Based on that evaluation, the Company's management concluded, as of the end of the period covered by this report, that the Company's disclosure controls and procedures were not effective in recording, processing, summarizing, and reporting information required to be disclosed, within the time periods specified in the Commission's rules and forms, and that such information was accumulated and communicated to management, including the principal executive officer and the principal financial officer, to allow timely decisions regarding required disclosures.

(b) Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
